February 14, 2012

Abstract

This report summarizes the context, organization, work and outcomes within the project 3D modeling and printing project suggested by the VORTEX team of IRIT to some of the third-year students in the IMA department of ENSEEIHT.

Contents

Chapter 1

Presentation of the project

1.1 The context

1.2 The work required

1.3 Available resources

1.3.1 The project team

1.3.2 Material resources

Chapter 2

Project management

2.1 Project supervision

2.2 Resource management and planning

2.3 The risk assessment

Chapter 3

The specification phase

- 3.1 The establishment of the Statement Of Work
- 3.2 The redaction of the technical specifications
- 3.3 The general architecture of the project
- 3.4 The technical choices

Chapter 4

The implementation phase

Chapter 5

The printer calibration

Chapter 6

The validation phase

6.1 Unit tests

6.2 Integration tests

6.3 Functional tests

6.4 User tests
